1 Demo Information

- Individual demos for HWs 2 & 3 take place in our classroom.
- You can demo using a desktop computer there, or you can bring a laptop (external mouse would be useful as I'll be the one interacting with your app).
- Be setup by the time on the schedule below.
 - ➔ Have 2 versions of VS open, one for HW 2 and one for HW 3.
 - ➔ Have the first page of each assignment loaded in the browser.
 - ➔ Jacob, Haley, & Grant, I will grade your assignments myself because I only have room for 16 demos. (If you would like to demo them, just schedule a time with me outside of class.)
 - ➔ I have 2 people scheduled at the same time slot because sometimes something goes wrong in a demo and sometimes I'll give you a minute to fix it. Meanwhile, I'll move to the next person to get started
