1 Demo Information

- Individual demos for HWs 4 & 5 take place in our classroom.
 - You must use a laptop for the demo because the classroom setups don't allow access to WAMP's localhost.
 - Be setup by the time on the schedule below.
- ➔ Have PHPStorm (or other IDE) open displaying HW 4 and HW 5
- ➔ Have the first page of each assignment loaded in the browser.
- ➔ I have 2 people scheduled at the same time slot because sometimes something goes wrong in a demo and sometimes I'll give you a minute to fix it. Meanwhile, I'll move to the next person to get started
