

Computer Graphics - Exam 2 Replacement

CS 4830 — Dr. Mihail

April 1, 2019

1 Prompt

As discussed in class, we will replace exam 2 with the submission of a working game. The requirements (and rubric) for this game are the following:

- The game has to require user interaction with keyboard, mouse, or both.
- There has to be at least one goal a player can achieve as a result of their interaction.
- Your program has to use computer graphics.

2 Grading

The rubric for this assignment is binary: if all three of the above conditions are met, you will earn 100%, otherwise 0%.

3 Extra credit

Up to 100% extra credit is possible for outstanding submissions.

4 Due date

Code due on the assignment submission web page on or before midnight of 4/14/2018.
